Intern Experience

We have carefully designed our internship program to provide meaningful work and learning opportunities to help you develop your skills.

Orientation
Your experience begins with an introduction to the company. You’ll learn more about Haworth, meet other interns, and find out how to make the best of your internship.

Professional Development
You’ll have the opportunity to participate in workshops to develop your communication and presentation skills, learn valuable networking skills, and initiate strategies for applying your strengths.

Knowledge Series
Hear from Haworth leaders and members about their current roles, their experience at Haworth, and the functional areas within Haworth in these sessions.

Networking
While at Haworth, you will have opportunities to build relationships—and your network. You’ll get to know recruiters, fellow interns, Haworth members, and people in the community through a variety of activities such as a welcome reception, a bowling outing, and a trip to Chicago to attend NeoCon (our industry’s annual trade show).
Intern Opportunities

Each year Haworth offers a number of paid internships in a variety of functional areas that include:

- Design/Innovation
- Engineering
- Finance/Accounting
- Human Resources
- Information Technology
- Marketing
- Operations
- Supply Chain

Get to know our organization from the inside and immerse yourself in our business.

Apply Online

1. Go to www.haworth.com/careers
2. Click on “See available career opportunities”
3. Search using “intern” as the keyword

On our career site you can:

- Search job postings and apply
- Check the status of your application
- Create a profile with your skills, qualifications, and career objectives
  » This adds your information to our database. When a position opens up, we search the database for candidates whose profiles match the position.
